OUR GOAL

ASIR’s goal is to improve the problem of inequality in education in underprivileged communities by providing an innovative and creative year round academic and social resource program for students to develop skills necessary to become progressive members of society. Our program offerings consist of academic and social resources that are essential to students as they transition from elementary, middle, junior high, and high school through college or trade school and/or into the career of their choice.

ASIR’s service offerings are designed to enhance students’ lives, and ultimately have a profound impact on the lives of their family members and their communities.
